YOUR HOME YOUR WAY

At La Dimora City you have the freedom to design your house as you have fantasised always. Plus, you can customize the interior how you see fit or desire. There is always a particular emotional attachment to choosing everything in your home from lighting fixtures to door knobs or paint color. You all have the ability to create this brand new expression of who you are and what you represent.

- An individual plot provides you greater degree of freedom.
- Right set of options to design the house as per your wish.
- Future modification of exteriors as per the latest trends and desired style.
- If you have keen interest in gardening then you would have a space to build on your interest or grow your pets.

FARIDABAD 2.0

Faridabad 2.0 also known as Greater Faridabad comes into the purview of a smart city, A concept introduced by Government to bring India to an International Arena.

Faridabad today with a population of 2.5 million and being the immediate neighbor of south Delhi is now well connected by a 6 lane highway and the metro.

Currently, it is witnessing a flurry of real estate activities. It won't be wrong to say that the city is witnessing a growth pattern similar to Gurugram and Noida in the recent past. In addition to the sale market, the rental market is also showing great improvement.

Also, this city holds a very pivotal position being the center point to connect Gurugram on the west, Noida, Greater Noida on the east and Delhi towards the north.

Greater Faridabad

What's driving this growth?

2000 BED HOSPITAL UNDER CONSTRUCTION ADJOINING LA-DIMORA SITE

HEALTHCARE

Haryana Chief Minister Sri. Manohar Lal laid the foundation stone for Amrita Institute of Medical Sciences & Research Center (Amrita Hospital). This marked the beginning of construction of the state-of-the-art healthcare facility spread across nearly 100 acre in sector 88, Faridabad. The hospital is being constructed by TATA Projects.

In addition, there is another under construction 100 hospital by AIMS (Asian Institute of Medical Sciences) in sector 88, Faridabad.

LAYOUT PLAN

Three words describe the belief of LightStone Developers. Everything that we pursue to achieve can be summarized in the words:

Transform. Inspire. Impact.

Transform the current landscapes, processes and ecosystems to create or convey something better. To drive economic, social and environmental changes on a large scale.

Inspire with the way we do trade – fairly and transparently. We continuously set new benchmarks for performance by driving the highest levels of productivity, competence and sustainability.

Impact the commercial arena we work in and beyond. We strive to provide innovative products, services and solutions, and reduce inefficiency and wastage of resources to build a better today and a greater tomorrow.

At LightStone Developers, spaces are more than just 'living' and 'working' areas, built from concrete, steel and glass, they are a combination of out-of-the-box thinking and cutting-edge technology that heralds a new dimension in construction innovation and design.

Our projects put together the most progressive thinking from the worlds of architecture, engineering, planning, landscape design and policy.
